

What is Seattle's Comprehensive Plan?

Our Comprehensive Plan is a 20-year vision and handbook for Seattle's future. It guides decisions that influence how Seattle grows and welcomes 120,000 more people and 115,000 jobs.

- First adopted in 1994 and last updated in 2004
- Part of a regional planning strategy guided by the 1990 Washington State Growth Management Act (GMA)
- Developed after years of analysis and community participation
- Provides guidance on:
 - Improvements to our transportation system: infrastructure to improve safety and make it easier for pedestrians, bicycles, transit, cars, and trucks to move around the city
 - Investments in utilities, parks, libraries, and other services and urban amenities
 - Where changes or more planning may be needed to improve our zoning and other development policies

While Seattle has grown a lot, the rest of our region has grown even more

What is Seattle 2035?

Seattle 2035 is a citywide conversation about how Seattle grows over the next 20 years. The City is updating Seattle's Comprehensive Plan to shape growth in a way that builds on our strength and character as a city.

Urban Village Strategy

Explains the City’s strategy for organizing growth, which is to direct most new jobs and households into regionally designated urban centers, manufacturing/industrial centers, and locally designated urban villages.

The four urban villages are within West Seattle:

- Admiral, Morgan Junction, West Seattle Junction, and Westwood / Highland Park

How can we involve people in our planning processes more effectively?

We have grown by more than 59,000 households and 56,000 jobs since the Plan was adopted in 1994. These charts show how growth has been distributed over the past twenty years.
